"Hopeful Hearts" Children's Grief Support Program

The "Hopeful Hearts" Program works with children (and their parent/guardian) who have lost a significant individual to death. These children enter the group at an uncertain time in their lives. They leave the program with a new sense of their own hearts and this very tender life transition they are engaged in.

The children say it helps with their grief and sadness, and to open up more. Facilitators have watched the little ones transform. They don't feel alone anymore because other kids have gone through the same thing; everyone understands.

There is such comfort in participating in "Hopeful Hearts". Children are given a safe place to explore their full range of emotions. Creative play, music and art are wonderful tools to help these children naturally embrace their grief.

Mission Statement

Rooted in the community and branching out to those in need, we provide social, emotional, and spiritual support for individuals and their loved ones as they face life-limiting illness, and ongoing grief support programs for children, teens, and adults.

We believe that no one need face a life-limiting illness alone, and no one need be alone with their grief.
